-
- ☉ We have demonstrated how to:
 - Manage No Further Confirmation & No Further Invoice
 - Use ME23N to verify that the transaction produced the desired result (locked line item)
 - Determine if a line or lines in a PO have been marked No Further Confirmation or No Further Invoice

SRM - Tips and Reminders

🌀 Accessing Purchase Orders in SRM

- “Purchasing” Folder
 - Use to access purchasing functions in SRM. As of November 25, 2013, all purchase orders have to be created in SRM
- “ME23N” Folder
- Use to access purchase orders created in ECC before COB November 8, 2013.

🌀 Inventory Purchase Order Account Assignment

- Use “Unknown” account assignment for inventory purchase orders since it’s a revolving account. Otherwise, you will receive the message “PO does not exist” when they try to create a GR.

-
- 🌀 Shopping Carts MUST be created using the “ESS” folder
 - 🌀 Purchase Orders cannot be created from a Contract
 - 🌀 POs still in ECC do not have “hard stop” on Target Value of Contract
 - SRM POs pointed to for “Central Contract” field whereas POs in ECC point to “Outline Agreement” field

Upcoming Projects for MM until July 1, 2014

- 🌀 Implementation of Support Packs
 - Testing
